Task 2 – Food KB:

Food KB Code

The screenshot shows a GNU Emacs editor window titled "foods.pro - GNU Emacs at DESKTOP-F834G24". The menu bar includes "File", "Edit", "Options", "Buffers", "Tools", "Debug", "IDLWAVE", and "Help". The toolbar contains icons for file operations (new, open, save, close, save all), editing (undo, redo, cut, copy, paste), and search (find). The code is written in Prolog and defines a knowledge base for food facts.

```
